DETAILED ACTION

This is in response to RCE filed on 2/26/08 in which claims 15-21 and 26-38 are pending. The applicant's arguments have been fully considered therefore this case is in condition for allowance. In addition the pending claims have been renumbered as 1-4, 11-13, 5-10 and 14-20, respectively.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior arts of record fail to anticipate or render obvious the following recited features:. wherein the sampler samples the communications channel at a first sampling rate when attempting to detect a packet and at a second sampling rate when the packet has been detected, wherein the second sampling rate has a different power consumption level than the first sampling rate; a correlator coupled to the sampler, the correlator containing circuitry to compare samples in the sequence of samples from the sampler and produce a correlation value based on the comparison, wherein the correlator is configured to correlate the sequence of samples with itself; and a processor coupled to the correlator and the sampler, the processor containing circuitry to detect the presence of the packet based on results produced by the correlator, decode and process data contained in the packet transmitted on the communications channel, and to control and change the sampling rate of the sampler; wherein the sampler comprises a latch coupled to the signal detector, the latch containing circuitry to capture a signal value at a first input and produce a sample corresponding to the captured signal value at an output; and a sampling clock coupled to the latch and the processor, the sampling clock containing

circuitry to control the sampling rate of the sampler based on control information from the processor as recited in all the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

3. Raphaelli et al U.S. Patent No 6,654,926 B1 teaches soft decision.
